Forest Hills Traditional & Contemporary
PORTRAIT-STYLE DIRECT-VENT FIREPLACES

Forest Hills Contemporary Fireplace with Piazza Bowl in White and Clear and Black Crushed Glass Mix

PORTRAIT-STYLE DIRECT-VENT FIREPLACES

Forest Hills Traditional & Forest Hills Contemporary

With its clean vertical lines the Forest Hills Portrait Fireplace adds a striking design element to your home décor. Available in Contemporary and Traditional models, these unique fireplaces offer several designer options to let you create your perfect fireplace.

In the contemporary models, the vertical motif carries through to the interior where multiple folds in the porcelain liner add to the impression of height. The rich black porcelain reflects the fire to create depth and enhance visual interest from any position in the room. The dual burner system resides in the earthenware Piazza vessel filled with your choice of crushed glass. Choose a black or white vessel and add one or more colors of crushed glass.

For a more conventional fireplace, choose the traditional model with its realistic hand-painted log set and ceiling-mounted accent lighting. Add the Rustic Banded Brick or Old World Stone liner – or the Black Porcelain liner which reflects the flame to create even greater visual interest. The available andirons help convey an old-world look.

All Forest Hills fireplaces include a multifunction thermostat remote control that can vary the flame height of the main burner. The remote lets you vary the accent lighting system or the optional blower.

The clean-face design allows tile or stonework to the edge of the window frame.

LINERS

For Forest Hills traditional fireplace models, choose a hand-painted ceramic fiber liner in rugged Old World Stone or Rustic Banded Brick. Or select a Black Porcelain liner to enhance the illusion of flame and depth. The Black Porcelain liner is standard on the contemporary fireplace model.

Old World Stone

Rustic Banded Brick

Black Porcelain
(Standard on
contemporary model)

FRONTS & FRAMES

Your portrait fireplace requires a decorative front or barrier frame, which includes a barrier screen to prevent accidental contact with the hot glass. Choose the Cathedral Front in Black Copper, the Portico Front in Natural Iron, or the simple Barrier Frame in Matte Black.
