Elite Radiant Vented Burners
Compatible Vented Log Sets

Elite Radiant Vented Burner with Kensington Forest Ceramics Fiber Log Set
The Elite Radiant Vented Burners deliver more heat to your room and more flames to your fireplace. With their unique construction and integrated radiant fiber heat sink, these burners produce dancing flames without using sand or vermiculite. Feel more heat radiate back into your room, all while using less fuel than a standard vented burner.

Features
- Uses less fuel than a standard vented burner
- Simple to use with multiple control options
- Produces flames without sand or vermiculite

Options & Accessories
- Two compatible log sets
- Natural Gas to Propane conversion kit
- Valve kits

Available Sizes
- 24-inch (55,000 BTU)
- 30-inch (65,000 BTU)

Control Options
- Match Light
- Manual Safety Pilot
- Millivolt
- Variable Remote
- IPI with Variable Remote
Compatible Log Sets

An Elite Radiant Vented Burner is not complete without a hand-painted log set to accompany it. Two compatible log sets, the Pioneer Refractory Vented Log Set and the Kensington Forest Ceramic Fiber Vented Log Set, fit perfectly with the Elite Radiant Vented Burners. Both log sets combine large logs and smaller branches with intricate hand painted details. The Pioneer Refractory Vented Log Set uses reinforced refractory construction for maximum durability. The lightweight Kensington Forest Ceramic Fiber Log Set presents a stunning fire and glow.
