LOFT SERIES FIREPLACES AND INSERTS

The unique Loft Series Fireplace includes a Loft burner in a compact and complete system. This versatile unit installs as a zero-clearance vent-free fireplace or as an insert in an existing fireplace.

Available in 28,000 BTUs, 20,000 BTUs, and 10,000 BTUs, the 99% efficient Loft Fireplace Insert will quickly warm your living space.

Choose the Millivolt system and select one of seven control options - from a simple wall switch to a thermostat remote to the ultimate programmable remote. Or choose the Intermittent Pilot system, which includes a variable flame-height remote control with integral thermostat.

Finish your fireplace installation with decorative media and a contemporary metal surround, available in two sizes: 6 x 7-inch or 3 x 4-inch.

Installed as an insert, your Loft system will require the decorative metal surround. The surround makes a clean transition from an existing fireplace. Custom surrounds are also available.

Add the optional blower to circulate heat throughout your room.

6 x 7-inch Metal Surround

3 x 4-inch Metal Surround

Proven Vent-Free Technology

At 99.9 percent efficient, your vent-free Loft Series Burner makes a great supplemental heat source for your home. Every Loft burner includes a built-in Oxygen Depletion Sensor that continuously monitors room air and shuts off gas to the system well before oxygen drops to an unsafe level. Vent-free technology has an unmatched record of providing safe, reliable heating for more than 40 years.

Zone heating with a vent-free system allows you to efficiently heat the rooms you use most and turn down the thermostat on your central furnace. This saves energy and money - up to 30 percent in a typical installation.

Vent-Free appliances may be installed in an aftermarket (mobile) home where not prohibited by state or local codes. The approval (G1-0504-90B) has been granted subject to the installation in compliance with CMR 248, 527 CMR 30, Massachusetts State Plumbing Code and/or the Massachusetts Fuel Gas Code.

Empire is committed to continuous product improvement; specifications are subject to change without notice.

Dimensions in this brochure are approximate; read and follow the framing dimensions in the owners manual supplied with your Empire product. Specifications are subject to change without notice. Flame size, shape, and color will vary from photos.

Warranty

All Vent-Free products carry a 5-year limited warranty with a 5-year limited labor warranty. Remote controls carry a 1-year limited warranty.
