1. Remove Offset Frame and Glass Frame assembly. See Fireplace Installation Instructions. 
   *(A)DVCX models only:* Remove control panel. See Fireplace installation instructions.
2. Adjust bracket to correct position depending on unit you have. **See Figure 3 below.**
3. Place Andirons into Firebox.
   • The Andiron “legs” must sit on the firebox floor, brick, ember bed, stone, or sheet metal liners.
   • The Rear Bracket of each Andiron must rest upon the left or right edge of the Burner.
   • If necessary, adjust the height of the Rear Bracket by loosening the nut on the back side. Use a 7/16-inch wrench or socket.
4. Replace items removed in Step 1. See Fireplace Installation Instructions.
